

BLOOD DONATION CAMP

DATE -13.10.2017

OBJECTIVES OF BLOOD DONATION CAMP:-

Blood is the gift of life. There is a wide gap between demand and access to safe blood. The major aims of organizing blood donation camp in the College are as follows,

- **Message of Humanity:**

- Donating blood, not only saves multiple lives but also give an opportunity to add value to one's life. It helps in teaching students about humanity and also defines the spirit of our natural co-existence for others.

- **Life Saving Measures:**

- Blood cannot be produced artificially. Requirement of blood arises during medical emergencies, accidents and life threatening diseases. Teaching students about the importance of blood donation at an early stage also helps in saving human lives and the sense of self gratification.

- **Ensuring Supply of Blood:**

- Fresh blood is produced in the body. After donating the blood new blood cells get stimulated and improve the blood circulation of the body. It ensures adequate supply of blood to the blood bank which can be used for the needy patients.

- **Support to Critical Patients:**

- Blood donation camps are organized with the purpose of supplying blood to the blood banks for the need of patients suffering from cancer, hemophilia, and thalassemia or accident victims.

- **Suitable Donors:**

- The purpose of blood donation camp is to select a suitable donor whose blood is safe for the recipients. With increase in population and development of more advanced medical and surgical procedures, the need for blood is increasing day by day. Voluntary blood donors facilitate in maintaining adequate supply of blood.

- **Removal of myths:**

- Blood donation is a noble act. Many people have wrong notions about blood donation and hesitate to donate blood. With the help of the Blood Donation Camps the misconceptions can be reduced and significance of donating blood can be inculcated.
